A headline in one of Monday's dailies says "All Kansas Soaked Again." Poor old Kansas! Probably disgusted with Stubbs.

Two counties in Missouri produce more corn than is grown in Montana, Wyoming, Arizona, Utah, Idaho, Washington, Oregon, California, Maine, Rhode Island, New Hampshire and New Mexico, according to T. C. Wilson, secretary of the state board of agriculture.—Kansas City Times.

Is there any other answer to Roosevelt's proposal to hold a reception Monday night and grasp by the hand every one of the 1078 delegates, except on the score that by his wonderful personality he might win them to himself? Some of these days Teddy may strain his ego a notch too far.

In the face of the diametrically opposed statements given out by the leaders regarding the outcome at the national convention, how can the people get any reliable information on the subject? "The wish is father to the thought," no doubt explains the statements of the different managers, and when this paper refuses to believe that Roosevelt can stampede the convention, again the same applies.

Republicans and Democrats of the lower house of Congress are playing a baseball game in Washington today, the proceeds to be given to charity. Probably enough of the gate receipts will be retained for buying a few barrels of arnica and witch hazel for the players.—Carthage Press.

Don't worry, Brother. In the storeroom of the United States Capitol the taxpayers have provided quantities of those healing lotions, together with Florida water, cologne, manicure sets and corn plasters to keep the people's servants comfortable during their long and arduous stay in Washington.

#### Non-Advertisers.

The non-advertising merchant, says an observing exchange, goeth forth to his lair at the rising of the sun and lo! no man entereth. He standeth around all day like unto a bottle of castor oil and the people with the shekels come not unto his shanty. He advertiseth not his wares and his face is forgotten of the earth. Who hath wormy dried apples? Who hath fly spoiled gingham? Who hath calico made before the Maine was blown up? Who hath stale baking powder without end? He that knoweth not the way of the printer nor the value of printer's ink.

### Mater et Filius.

Sometimes in the hush of the evening hour  
When the shadows creep from the west,  
I think of the twilight songs you sang,  
And the boy you lulled to rest—  
The wee little boy with the tousled head,  
That so long ago was thine.  
I wonder if sometimes you long for that boy,  
O little mother of mine.

And now he has come to man's estate,  
Grown stalwart in body, and strong,  
And you'd hardly know that he was the lad  
Whom you lulled with your slumber-song.

The years have altered the form and the life  
But his heart is unchanged by time,  
And still he is only thy boy as of old,  
O little mother of mine.  
—Wesleyan Literary Monthly.

### Cowpea Hay For Dairy Cows.

What about the hay crop? Will you have plenty of good forage for next winter or will you be forced to fall back on straw or crab grass hay? Cows cannot maintain their milk yields unless fed liberally of the right kinds of feeds. These feeds must contain a relatively large amount of protein. This is furnished most cheaply in forage. It is not found in sufficient quantities for milk cows in timothy, prairie grass, crab grass, sorghum, or straw, but is found in cowpea, soy bean, alfalfa or clover hay.

Cowpea hay has about the same feeding value as alfalfa and is some better than clover. Cowpeas can be sown after wheat or oats, and will generally mature early enough to cut for hay before frost. As soon as the crop which they are to follow is removed the stubble land should be double disced and then harrowed to make the best possible seed bed. The seeding can be done with an ordinary grain drill using the oat cups wide open. This will sow at the rate of 4 or 5 pecks to the acre.

It is best to cut the peas for hay when the first pods ripen, shocking them in narrow high shocks the day after cutting, and allowing to cure in the shock for a couple of weeks. With favorable weather the hay will be ready to bale, stack or mow away at the end of that time. Rains do not harm the hay very much when in the shock.

On average soil sown as indicated above in an average season, cowpea hay makes about a ton per acre. Farmers with dairy cows or any other live stock should sow as much as possible on stubble or any other vacant land. Now is the time to get ready to sow.

### Whole Family Benefited By Wonderful Remedy

There are many little things to annoy us, under present conditions of life. The hurry, hard work, noise and strain all tell on us and tend to provoke nervousness and irritability. We are frequently so worn out we can neither eat, sleep nor work with any comfort. We are out of line with ourselves and others as well.

A good thing to do under such circumstances is to take something like

#### Dr. Miles' Anti-Pain Pills

to relieve the strain on the nerves. Mrs. J. B. Hartsfield, 33 Corput St., Atlanta Ga., writes:

"I have on several occasions been vastly relieved by the use of your medicine, especially the Anti-Pain Pills, which I keep constantly on hand for the use of myself, husband and two sons. Nothing in the world equals them as a headache remedy. Often I am enabled by the use of one or two of the Pills to continue my housework when otherwise I would be in bed. My husband joins me in my praise of the Anti-Pain Pills and Nervine."

#### Dr. Miles' Anti-Pain Pills

are relied upon to relieve pain, nervousness and irritability in thousands of households. Of proven merit after twenty years' use, you can have no reason for being longer without them.

### Apple Crop Will Be Large.

Missouri's apple crop this year will be the largest the state has had for many years according to a report issued by W. W. Cheno-weth, secretary of the state board of horticulture. The condition of the crop, the report says, is unusually good and free from the blight of insects. An average of 20 per cent of the orchardists are spraying this year. The condition of the crop is placed at 77 per cent. Last year there was only 40 per cent of a crop.

## 29 Common Sense Silos

SOLD IN TONGANOXIE IN 1911

32 Already Sold at the Same Place  
This Year.

MR. WHITTAKER OF WALNUT  
GROVE HAS ORDERS FOR 26.

Mr. Roe Cline of Jasper and myself and 15 farmers and business men from Missouri and Kansas were at Tonganoxie last Saturday and examined the Common Sense Silo. After examining both stone and Common Sense silos all were convinced that the "Common Sense" was the superior silo. In fact farmers that have used both told us that if they erected another silo they could not be induced to erect a Stone Silo but would build a Common Sense Silo every time. We do not ask you to take our word but ask Mr. Roe Cline, or we can furnish you a list of 50 farmers that will tell you the same story.

Cement - Buyers

Save Every Fifth Sack

You can Use One-fifth less of  
ASH GROVE SUPERFINE Portland Cement than  
you can of any Standard Ground Cement because  
it is One-fifth—20%—Stronger

So if you figure that you will need 100 sacks of Standard Ground Cement for a particular job, you need buy only 80 sacks of Ash Grove Superfine. It will do the work.

You save one sack in every five—20%—by buying Ash Grove Superfine in preference to Standard Ground Cement. Figure that saving in dollars.

The reason that Ash Grove Superfine will go 20% farther—do 20% more work—than Standard Ground is because it is finer ground.

Write to the Ash Grove Lime & Portland Cement Co., Kansas City, Mo., for helpful booklets telling all about Cement and why Ash Grove Superfine will give you greatest satisfaction. Then insist upon getting

### Ends Hunt for Rich Girl.

Often the hunt for a rich wife ends when the man meets a woman that uses Electric Bitters. Her strong nerves tell in a bright brain and even temper. Her peach-bloom complexion and ruby lips result from her pure blood; her bright eyes from restful sleep; her elastic step from firm, free muscles; all telling of the health and strength Electric Bitters gives a woman, and the freedom from indigestion, backache, headache, fainting and dizzy spells they promote. Everywhere they are woman's favorite remedy. If weak or ailing try them. 50 cents H. F. Pitts.

Hospital Service for Dogs.  
A special ambulance service has recently been started in London for wounded dogs. It is run in connection with the Animals' Hospital and Institute at Kinnerton street, Pimlico. When a dog is run over in the street or injured in any way, the hospital may be phoned and a motor ambulance is immediately despatched. A qualified attendant always accompanies the ambulance.
